Ajanta Luhana

Karachi, Pakistan | +92 312 3890668 | ajantaluhana@gmail.com | GitHub | Portfolio

PROFESSIONAL SUMMARY

AI Engineer who ships self-hosted RAG pipelines, LLM agents and API-integrated automation (Ollama, LangChain, FastAPI, Docker) for client and HR/operations workflows. Cut manual processing by ~40% and workflow turnaround by ~60% across 2 client accounts. Experienced in scoping GenAI solutions with stakeholders and tuning RAG retrieval quality. Oracle Certified Generative AI Professional.

PROFESSIONAL EXPERIENCE

AI Software Engineer | Pixis Software (Remote, US) | Sep 2026 - Present

- Deliver AI-powered software for 2 client accounts from design to deployment, cutting manual processing by ~40% and workflow turnaround by ~60%.
- Automated 20+ hours/week of repetitive work with LLMs, REST APIs, backend services and system integrations, reducing task time from several hours to under 30 minutes.

AI Engineer | Metavystic Private Limited (Islamabad, Pakistan) | Jun 2026 - Sep 2026

- Built self-hosted RAG pipelines (Ollama, LangChain) that automated HR and operations document generation and approvals for a 4-person HR team, keeping all data on-premises.
- Deployed AI agents with Docker and REST APIs into existing business systems, cutting request and approval turnaround from days to hours.
- Owned the path from model to production: prompt design, self-hosted model selection, API integration and deployment.

AI Consultant | Pixis Software (Remote, US) | Aug 2025 - Nov 2025

- Scoped and delivered 4 GenAI/LLM solutions, translating business requirements into technical specs with stakeholders and dev teams.
- Evaluated and tuned RAG retrieval pipelines to improve response accuracy and output quality across client deployments.

Customer Support Executive, Operations | IBEX (Karachi, Pakistan) | Dec 2024 - May 2025

- Handled 1,200+ monthly inquiries across phone, email and chat; 22% lower handling time, 95% first-contact resolution, 18% higher CSAT.

Data Analyst | Voguetech (Hyderabad, Pakistan) | Dec 2023 - Dec 2024

- Built and maintained 5+ SQL dashboards tracking sales and revenue KPIs for leadership across product lines.
- Analyzed 12 months of sales data to find underperforming segments; recommendations informed pricing and inventory decisions.

EDUCATION & CERTIFICATIONS

BE, Telecommunication Engineering | 2019 - 2023

- **University:** Mehran University of Engineering & Technology, Jamshoro
- **Certifications:** Oracle Cloud Infrastructure 2025 Certified Generative AI Professional; Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate; Oracle Data Platform 2025 Certified Foundations Associate; iCode Guru Generative AI Application Developer (Top Performer)
- **Award:** Ehsaas Undergraduate Scholarship (HEC), merit- and need-based

PROJECTS

- **HRMS AI Automation** (Live, Jun 2026 - Sep 2026): Self-hosted GenAI/RAG system (Ollama, LangChain) automating HR document generation and approvals across recruitment, onboarding, attendance and payroll, fully on-premises.
- **DroneVision AI** (GitHub, Jun 2026 - Sep 2026): YOLO/OpenCV system that detects and tracks objects in aerial video, flags suspicious activity in restricted zones, and generates risk scores, alerts and automated reports.
- **Meet Ajanta AI** (Live, Oct 2026): LLM conversational agent with prompt engineering that answers education and career questions.
- **Lightweight Quadcopter** (BE Final-Year Thesis, Ignite NGIRI funded, Details, Nov 2022 - Nov 2023): Modelled 6-DOF flight dynamics, built PID controllers in MATLAB/Simulink and generated C firmware for an APM 2.8 flight controller with GPS, telemetry and live video link.

TECHNICAL SKILLS

- **GenAI & LLMs:** RAG, AI Agents, Prompt Engineering, LLM Integration, Ollama (self-hosted models), LangChain, OpenAI API, Hugging Face
- **ML & Computer Vision:** PyTorch, TensorFlow, Scikit-Learn, NLP, YOLO, OpenCV
- **Backend & APIs:** Python, FastAPI, REST APIs, Microservices, API Integration
- **Data:** SQL, PostgreSQL, Vector Databases, Pandas, NumPy
- **DevOps & Cloud:** Docker, Git, Linux, CI/CD, AWS
- **Other Languages:** C++, JavaScript
